Ask us for possibilities of your ship at: +31 26 325 23 28

## Strong in service

We can perform on-site inspections, carry out repairs on board, at a shipyard, in a dry dock or in our workshop.

From collection and transport to disassembly, repair, reinstallation and even handling insurance claims, we take care of everything.

Our goal: to minimize your ship's downtime and give maximum support.

Looking to reduce delivery time even further?  
Consider a spare thruster.

We can also arrange secure storage for you.

## Large stock

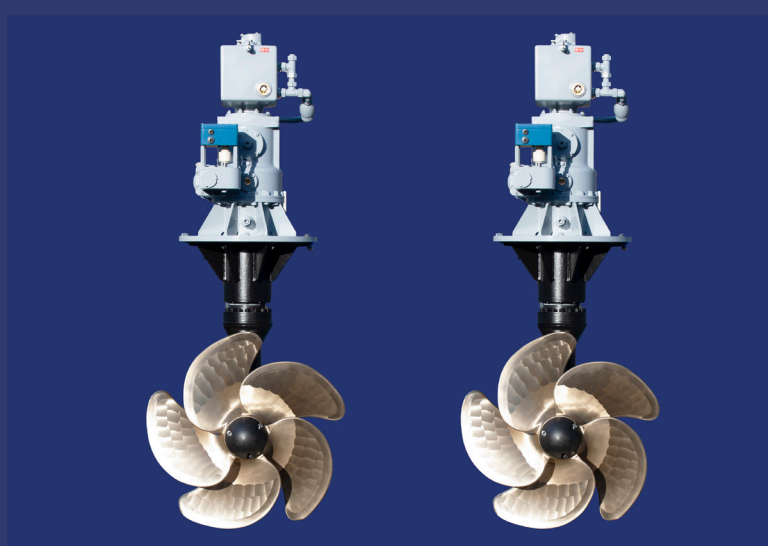

Our warehouse holds a wide selection of spare parts for various brands and types of thruster systems. We maintain a large inventory of high-quality gears, bearings, liners, seals and more. Need a specific part (urgently)? Contact us!

We understand how critical timely delivery can be.

## Schraven Thruster Systems

In addition to servicing all major brands, we have developed our own high-performance thruster range. A reliable, powerful, and suitable solution for different types of vessels. Developed with a focus on quality and customer needs.
